Mornaque

"Mornaque" is a superb example of Najad's most attractive model! - This is a "one owner" Najad with a very high specification which includes a couple of unique features - for example, this boat has a shaft drive rather than the normal sail-drive - Mornaque is a really comfortable and well made ocean-going yacht which has been pampered by a very knowledgeable and competent owner -(Mornaque is, in fact, the owner's second Najad!)
